

Grant application awarded 2010

Biomarkers for differential dementia diagnosis.

€100 000

Awarded to Sebastiaan Engelborghs

Institute Born-Bunge, Laboratory of Neurochemistry and Behavior, University of Antwerp, Antwerpen
2011-2012

Follow-up of genome-wide association studies in a powerful study population of Belgian FTL D patients

€50 000

Awarded to Julie van der Zee

VIB Department of Molecular Genetics, Neurodegenerative brain disease Group, University of Antwerp, Antwerpen
2011-2012

Yeast-based models to study the Alzheimer's disease associated protein Pin1

€50 000

Awarded to Vanessa Franssens

Department of Biology, Laboratory for Functional Biology, Catholic University of Leuven, Leuven
2011-2012

Characterization of the risk effect of GRN missense mutations using a knock-in mouse model

€25 000

Awarded to Nathalie Brouwers

VIB Department of Molecular Genetics, Neurodegenerative brain disease Group, University of Antwerp, Antwerpen
2011-2011

Morphological and Molecular dissection of the γ -secretase independent function of Presenilins in trafficking

€100 000

Awarded to Wim Annaert

VIB Department of Molecular and Developmental Genetics, Laboratory for Membrane Trafficking, Catholic University of Leuven, Leuven
2011-2012

Transmembrane helix association in APP processing and gamma-secretase activity.

€87 000

Awarded to Pascal Kienlen-Campard

Laboratory of Experimental Pharmacology, Catholic University of Louvain, Brussels
2011-2012

Camelid nanobodies as therapeutic to curb gelsolin amyloidosis.

€75 496

Awarded to Jan Gettemans

VIB Department Medical protein Research, Nanobody laboratory, University of Ghent, Ghent
2011-2012

Identification of the chromosome 9p FTD-MND genetic defect using next generation.

€100 000

Awarded to Marc Cruts

VIB Department of Molecular Genetics, Neurodegenerative brain disease Group, University of Antwerp,
Antwerpen

2011-2012
