

# Grant application awarded 2007

## **Structural study of A $\beta$ oligomers in Alzheimer's disease**

€37 500

Awarded to Joost Schymkowitz

VIB Switch laboratory, Free University of Brussel

2007-2008

## **Molecular genetics of Lewy Body dementias**

€80 000

Awarded to Jessie Theuns

VIB Department of Molecular Genetics, Neurodegenerative brain disease Group, University of Antwerp

2007-2009

## **Role of GxxxG motifs in APP dimerization and function**

€80 000

Awarded to Pascal Kienlen-Campard

Laboratory of Experimental Pharmacology, Catholic University of Louvain, Brussel

2007-2009

## **MicroRNA dysregulation in Alzheimer's disease**

€240 000

Awarded to Bart De Strooper

VIB Department of Molecular and Developmental Genetics, Laboratory of Neuronal Cell Biology and Gene

Transfer, Catholic University of Leuven

2008-2010
