

Grant application awarded 1998

Genetic and physical analysis of Alzheimer disease genes

€86 762

Awarded to Christine Van Broeckhoven

VIB Department of Molecular Genetics, Neurodegenerative brain disease Group, University of Antwerp
1998-2000

Transgenic mouse and rat models for Alzheimer's disease

€86 394

Awarded to Diederik Moechars

VIB Experimental genetics Group, Center for Human Genetics, Catholic University of Leuven
1998-2000

Generation of neurofibrillary tangles in tau transgenic mice

€86 281

Awarded to Jean-Pierre Brion

Laboratory of General Histology, Neuroanatomy and Neuropathology, Free University of Bruxelles
1998-2000

lipoproteins and amyloid beta in Alzheimer's disease

€44 620

Awarded to Christine Labeur

Laboratory for Lipoprotein, Chemistry Unit, University of Ghent
1998-2000

Modulating presenilin expression with lentiviral vectors

€44 620

Awarded to Bart De Strooper

VIB Department of Molecular and Developmental Genetics, Laboratory of Neuronal Cell Biology and Gene Transfer, Catholic University of Leuven
1998-2000
